**IMPORTANT:**  
A complete Rack requires three packages:  
**Master Pack A, Depth Rail Set B & Height Rail Set C**

- Master Pack A** - 8 connecting corners, 4 width rails, 4 nylon leveler/glides & 96 dog point screws
- Package B** - 4 depth rails, rack screws & washers
- Package C** - 4 height rails, rack screws & washers

Master Pack A contains four width rails creating the rack width. Package B contains four depth rails creating the rack depth. Package C contains four height rails creating the rack height. There are four standard depth rail sets and 10 standard height rail sets from which to choose.

All eight connecting corners from Master Pack A are identical. Each connecting corner has 3 sides. Two of the sides have 4 holes. The remaining side has a 5th hole which is a 5/16" tapped hole to accommodate leveling feet, casters and either anchoring or attaching other accessories.
